A Message from Your Chapter President

Dear WIPA Cincinnati,

As we embark on another year, I want to express my sincere gratitude for your continued support of our community. With so many options for your marketing and networking dollar, it truly means a lot that you choose to invest with us.

Today, I'd like to talk about sponsorship. First, a heartfelt thank you to everyone who has sponsored an event in any capacity—your contributions make what we do possible! For those considering sponsorship in the future, I'd love to offer a fresh perspective.

We all know that many of today's couples gravitate toward similar trends—classic white florals, a Tuscan head table, short rib with mashed potatoes, paired with an Old Fashioned or a vibrant vodka or tequila cocktail. While these elements are timeless, WIPA sponsorship offers you something different: the freedom to showcase your creativity in ways that might take more convincing at a wedding.

Think of sponsorship not as a necessity but as an opportunity—a chance to push our industry forward through imagination and artistry. Let's shift the mindset from "we need what you do" to "you have free rein to create something spectacular within your craft."

Wishing you a strong finish to the booking season, and I look forward to seeing you at our Q2 event!

Best,

Loren

LOST AND FOUND EVENT RENTALS

Eleven years ago, I escaped the day-to-day corporate life of marketing and graphic design to bring a world of beauty, style, and seamless perfection to the event industry. I enjoy being creative, resourceful and hunting down the perfect piece to make your event unique.

For my wedding clients, I enjoy curating the pieces used to create an exquisite wedding-day vignette that not only complements the personality of my clients, but also the venue and overall atmosphere. Your wedding day is a reflection of your unique love story, and I understand the importance of making it truly unforgettable. With a carefully curated collection of elegant furniture and props, I offer a range of options to suit your personal style. From vintage-inspired sofas to statement pieces that add a modern touch, my rentals will elevate your venue and create a captivating ambiance.

When I'm not working with couples who are planning their wedding, I'm enjoying time with my husband, our three sons and our dogs on our farm. I hope you enjoyed getting to know more about me. I look forward to getting to know more about you and serving you well in the near future.

OAKLEY AND HYDE

Turn on some music, pour a glass of wine, hand over a sketch book, and we can create just about any solution. That combination is what inspired Oakley and Hyde back in 2020. Named after our first apartment on the crosspaths of Oakley and Hyde Park, where we loved to daydream and design. Our story is a perfect illustration of how two passionate creatives combined their skills to serve others.

Imagine your event intentionally designed from the first impression of your invitations, the interaction of your seating chart, to the stylish bar setup that you gather around. We love partnering with planners and couples to brainstorm and execute uniquely personal designs that wow your guests.

An architectural rendering of a modern multi-story brick building, identified as Hotel Celare. The building features a large mural of a woman's face with floral patterns on its facade. A vertical sign on the right side of the building reads "CELARE". The ground floor has large glass windows and an outdoor seating area. The overall scene is overlaid with a semi-transparent white filter.

A photograph of two women in formal gowns at a night event. The woman on the left is wearing a dark blue, sequined, strapless gown with a draped bodice and a long train. She is smiling and holding a martini glass. The woman on the right is wearing a black, strapless, floor-length gown and is also smiling and holding a martini glass. In the background, other women in formal attire are visible, and a city skyline is seen through a window or balcony railing. The scene is lit with warm, ambient light, and there are some light trails in the background.
